Recipe

Tasty Tomato Tulips

Ingredients

- Small punnet of plum tomatoes (2-4 per child)
- Large bunch of chives
- Pack of cream cheese

Method

1. Start by cutting each tomato as if you were going to cut it into quarters- stop before you cut all the way- about 1/2 a centimetre from the bottom
2. Fill a few of the tomatoes with a little cream cheese and push the quarters back together (the cream cheese will help it stick together!)
3. Cut some long chive stalks to create the stems of your flowers
4. Now use a pair of scissors to chop the remaining chives into equal pieces- you'll use this to create the grass
5. Finally, arrange the flowers, stems and grass- using the picture above to help guide you (don't worry if it doesn't look perfect- just have fun creating this tasty snack!)
